

## Mission

By putting the child at the heart of everything we do and encouraging them to aim high and dream big. Our schools, at the heart of their communities, will strive to improve children's progress.

## Values

### Aspire

Providing a first-class education, with the best opportunities for all our children and staff.

### Participate

Creating inquisitive learners by remaining curious ourselves. We will learn from each other and the wider environment through all activities.

### Respect

A secure setting, developing the whole child and caring for families, whilst creating opportunities. Developing staff to be the best they can be.

### Enjoy

Embracing new challenges, to receive new experiences and to thrive across a range of areas, achieving as part of the journey.

### Community

Being at the heart of our communities, raising aspirations for all. Working collaboratively across the trust and beyond.

## Vision - by 2026

High quality provision, opportunity and safe, appropriate environments will be standard across our schools.

Our pupils and students will be in the top 5% nationally for progress as a result of excellent teaching, curriculum and broader activities.

We will engage with the most effective organisations to ensure our pupils/students and staff, as well as those within our broader area, have genuine opportunity to grow.

We will grow as an organisation working with and supporting other organisations, ensuring that our mission and values can reach more children, schools, staff and communities. Our schools and organisation will be financially secure.
